Help prevent birth defects by participating in the 1982 WALKAMERICA TEAMWALK on Sunday, April 25, starting at Kezar Stadium. Registration is at 7 a.m., walk at 8 a.m.

Sponsored by the March of Dimes, the walk is 32 kilometers (almost 20 miles) and raises money to support clinical research, medical services, and public and professional health education — all in the fight against birth defects and toward the goal of a healthy birth for every baby.

UCSF was the recipient of grants totaling $257,000 from the March of Dimes in the past year alone, all raised in the 1981 walk.

Money raised and corresponding prizes awarded will include: $50 or more, WALKAMERICA T-shirt; $100, tote bag; $200, nylon windbreaker; $300, AM/FM clock radio; $400, AM/FM tape player; $750, Sony Walkman and $1,000, Atari video game. In addition, the individual raising the most money will win a trip for two to Hawaii for a week.

Departments or individuals needing sponsor sheets should visit the Office of Public Service Programs at 1479-4th Avenue or call x3206.

William J. Rutter, PhD, has been chosen by the Committee on Research of the Academic Senate, as the 25th Annual Faculty Research Lecturer. Rutter, professor and chair, Biochemistry and Biophysics, will speak on "The New Biology and the Solution of Biomedical Problems; Hepatitis B Virus," on Thursday, May 20, from 4 to 5 p.m. in HSW 302.

The selection of the Faculty Research Lecturer represents the foremost recognition for scientific achievement by this campus.

Rutter has been recognized nationally and internationally for his pioneering work in recombinant DNA and has made an immense contribution to the field of insulin and pancreatic function, and most recently to the structure and function of the Hepatitis B Virus.

Rutter received his BA from Harvard and his PhD from the University of Illinois. He came to UCSF 14 years ago as Hertzstein professor and chair of the Department of Biochemistry and Biophysics. He is on leave from the latter position during this academic year.

Past Faculty Research Lecturers include: John W. Severinghaus, pulmonary physiology; Mary Margaret Clark, anthropology; J. Michael Bishop, molecular biology; and Abraham Rudolph, pediatric cardiology.

Chancellor Sooy has appointed a review team of food service professionals to evaluate the long-standing financial problems in the Millberry Union cafeteria and Faculty Club and to address concerns expressed about the possibility of contracting out MU food services.

The team met on campus Thursday and Friday, April 22 and 23. It will be giving the Chancellor and Vice Chancellor Evanoff recommendations on various options for action to resolve the MU food service deficits.

The team included Michael DeRousse, director of Food Services, UC-Santa Barbara; Lawrence Swanson, associate director of Student Housing, UC-Davis; Larry Barrett, director, Auxiliary Enterprises, UC-San Diego; and two UCSF administrators, Leon King, director of Nutrition and Dietetics and Freeman Bradley, director of the Research and Development Laboratory.

NEWS BRIEFS

Nobel Laureate Paul Berg will present the Smith, Kline and French Lectures on Wednesday and Thursday, May 12 and 13 in Cole Hall at 4 p.m.. His topic for both days will be "Expression of Transduced Genes in Mammalian Cells."

Berg, who is the Willson Professor of Biochemistry at Stanford, won the Nobel Prize for Chemistry in 1980 for his work in dissection and reconstruction of genes and chromosomes.

The Smith, Kline and French Lectures have been held annually at UCSF since 1976 and feature noted international scientists. They are sponsored jointly by the UCSF Department of Biochemistry and Biophysics and the Smith, Kline and French Laboratories in Philadelphia.

A financial planning workshop will be held for the campus community on Saturday, May 1 in Cole Hall from 9 a.m. to 4 p.m.

Sponsored by the Benefits and Development and Training sections of the Personnel Department, the workshop will offer detailed advice on tax, estate and retirement planning, insurance, investments and investment counseling. Financial consultants from the private corporation, Waddell and Reed, will present the program.

To register send your name, address and UCSF phone extension to Development and Training, 1475-4th Avenue with a $5 check payable to the UC Regents to pay for registration. For further information call x4032.

The Chancellor's Summer Youth Program will begin its 14th year in June.

The program hires low income disadvantaged high school students from San Francisco for a variety of jobs on campus. Federally-sponsored, the program calls for each participating department to supplement the student's salary.

Supervisors are asked to contact David Johnson, coordinator, at x4032, if there is a need in your department.

The School of Medicine will hold its annual Alumni-Faculty Association Homecoming on Saturday, May 15.

The morning program will include Surgery Grand Rounds by F. William Blaisdell, UC-Davis and introduction of William O. Reinhardt, MD, '38, as Alumnus of the Year. The 1982 Distinguished Faculty Lecturer, Elliot Rapaport, MD, '46, and the 1982 Alumni-Faculty Visiting Professor, Delbert A. Fisher, MD, '53, also will speak.

The afternoon program will be the 25-Year Anniversary Scientific Session by the Class of 1957. Speakers will include Alan Leveton, MD, Archibald Wilson, MD, John C. Fletcher, MD, Donald Stone, MD, Rex MacAlpin, MD, Melvin Rubin, MD and Norman Rubaum, MD.

That evening there will be a homecoming banquet at the St. Francis Hotel at which the Charlotte Baer Award will be presented to a member of the UCSF clinical faculty for outstanding service to the School of Medicine. For further information on the A-FA Homecoming call x1471.

Understanding what happens when the blood supply is cut off to peripheral nerves is the object of a study by a new laboratory established this month in the Department of Neurology under Gareth Parry.

The laboratory will be one of few in the country to study damage to peripheral nerves and how to reverse it. Several diseases, such as diabetes and arthritis, are complicated by strokes in peripheral nerves.

Parry is currently gathering a group of patients to examine the clinical parallels of the disease that he studies in animals.

Patients with mononeuritis multiplex are especially needed for these clinical aspects of Parry's studies. Physicians may refer patients to x2180 or x1986.

The UCSF Child Care/Study Center at 610 Parnassus Avenue, is holding an open house Tuesday, May 4 at 5 p.m. The program will feature William Coblentz, chair of the UCSF Board of Overseers speaking on "Child Care Study: Model for the Future." There will be entertainment by "The Brass Ensemble" and wine will be served. The open house is sponsored by the Friends of the UCSF Child Care/Study Center. For further information call x1616.

The Third Annual Verne T. Inman Lectureship and the Seventeenth Annual LeRoy C. Abbott Orthopaedic Society's Scientific Program will he held Thursday and Friday, May 13 and 14 in the Postgraduate Auditorium, Room C 701.

The Visiting Professor for both lectures will be Clement B. Sledge, MD, the John B. and Buckminster Brown Professor of Orthopaedic Surgery, Harvard Medical School. Sledge also is chair of Orthopaedic Surgery at the Brigham and Women's Hospital in Boston.

Sledge will present the Inman Lecture on Thursday at 11:30 a.m. when he will speak on "Cell-to-Cell Communication in Joint Disease." The Abbott Lecture will address "Technique and Results in Total Knee Arthroplasty," Friday at 10:30 a.m. For registration information on both lectures call x1166.

The Inman Lectureship honors the second chair of the UCSF Department of Orthopaedic Surgery. Inman, who was internationally known for his research on human locomotion and the development of prosthetic devices for the amputee, established the UCSF Biomechanics Laboratory in 1957, the first lab of its kind anywhere devoted to this discipline. He served as its director for the next 16 years.

The LeRoy C. Abbott Orthopaedic Society was founded in 1965 in honor of the chair of the Department of Orthopaedic Surgery from 1939 to 1957.

The second annual conference on toxic exposures and other injuries to fire fighters and fire victims will be held Thursday and Friday, May 6 and 7 at the Jack Tar Hotel, S.F.

The series of lectures and panel sessions will review the latest developments in assessing, managing and preventing toxic exposures, burns and smoke inhalation. The program is designed for physicians, nurses, paramedics, fire fighters, police and other public safety and health professionals.

Conference coordinators include the Center for Municipal Occupational Health and Safety at SFGH, the S.F. Bay Area Regional Poison Control Center, S.F. Fire Department and Cal-OSHA. Continuing education credit is available. For further information contact Kenneth Lem, PharmD, School of Pharmacy, S 926, x4194.

The campus Mailing Division now can provide U.S. Post Office Express Mail Service for all University business mail. The Postal Service guarantees "next business day" mail delivery to many areas in the country at a cost of $9.35 for items weighing up to two pounds. Mail receipt forms and express mail tags available at SB 26 must be used. For further information contact Jon Gledhill, x1124 or x6975.

Chancellor-designate Julius R. Krevans, MD, delivered the first Milo E. Rowell Memorial Lecture on April 23 at the Rowell Medical Education Building in Fresno.

Krevans, who for the past 10 years has served as dean of the School of Medicine, spoke on "Medical Education for the 1980's." Effective July 1, Krevans will succeed Francis A. Sooy, MD, as UCSF Chancellor.

The Milo E. Rowell Memorial Lecture, which will be held annually, honors the memory of the late Fresno community leader who helped to establish the UCSF/Fresno-Central San Joaquin Valley Medical Education program. A member of a pioneer Fresno family, Rowell spent most of his life as a practicing attorney, but maintained a longstanding interest in improving health care in the Valley.

When the UCSF/Fresno program was inaugurated in 1975, Sooy presented Rowell with the highest award of the campus, the Gold Medal, in recognition of his contribution to the University and to medical education in California. Rowell died in 1977.

The newly remodeled children's playground at Langley Porter was dedicated in mid-April honoring those who contributed funds to create the playground for patients of the Institute's Child and Adolescent Service.

The Child and Adolescent Service under the direction of Irving Philips, MD, provides diagnostic and evaluative services, as well as brief treatment, for severely disturbed children up to the age of 14. As many as 12 children at a time live at the center for brief periods of inpatient therapy.

The primary donors of funds for the playground were the Bothin Helping Fund, the Morris Stulsaft Foundation and the Transamerica Corporation. In addition, money was raised by members of the LPPI staff, through bake sales and individual donations. The staff members of the Child and Adolescent Service also donated funds totaling $3000 and the Senior Citizens of Alameda made a contribution.

Due dates for Staff Personnel Action Forms (PAFs) are: Friday, May 14 for those with July 1 effective dates — submit to Personnel Office; and Friday, May 7 for academic PAFs — submit to the Office of the Vice Chancellor, Academic Affairs. Personnel Office must submit these to Accounting before June 9.

Departments on the Centralized Hospital Payroll should send "Request for Payroll Action" forms to Hospital Payroll by May 14. Other hospital departments must send PAFs directly to the Personnel Office. For further information contact your personnel assistant at x1563, x1564 or x2773.

IN MEMORIAM

George Francis Melody, professor, Obstetrics/Gynecology. A member of UCSF for 35 years, he retired in May, 1981. A graduate of Stanford, he was the son of the late George Melody, who pioneered dairy inspection for the State Department of Public Health.

Wendy Everett Watson has resigned from her position as assistant director, Hospitals and Clinics, effective June 11 of this year.

Watson will assume the position of vice president, Ambulatory and Community Health at the Brigham and Women's Hospital in Boston, a 712-bed teaching hospital closely affiliated with Harvard Medical School. She also will become the program director there of the Robert Wood Johnson Teaching Hospital General Medicine Practice Program.

Ron Lipsy, assistant director, Hospitals and Clinics, is chairing a committee to conduct a national search for a new director of Ambulatory Care Nursing.

The "New Federalism" and what it means to health care in San Francisco is the topic of a symposium to be held Wednesday, May 19 at the S.F. Medical Society, 250 Masonic Avenue.

Entitled "Where is Health Care Going: The New Federalism in San Francisco" the symposium will feature key people who shape and implement San Francisco health policy. Speakers include David W. Allen, MD, immediate past president of the S.F. Medical Society; S.F. Supervisor Louise Renne; UCSF's Carroll L. Estes, PhD, Aging Health Policy Center and Pat Franks, Institute for Health Policy Studies; Dean Joyce C. Lashoff, MD, School of Public Health, UC-Berkeley; as well as representatives from Blue Shield, Hospital Union Local 250 and the California Hospital Association.

The symposium costs $20 which includes lunch. It is sponsored by UCSF's Continuing Education in the Health Sciences and the Institute for Health Policy Studies, the S.F. Medical Society and the S.F. Department of Public Health. For registration information call x3904.

Volunteers are needed to participate in a new LPPI study which looks at special stresses of doctor couples during their training years (medical school and residency) and during their early teaching years on the faculty at UCSF.

If you are a medical student, resident or a member of the attending staff at UCSF and are in a close relationship with another doctor (married or committed) and would like to volunteer, contact psychiatrists Madeleine Meyer, MD, at 77-305 or Lynn Ponton, MD, at 77-337. Other members of the psychiatrist team are Nancy Kaltrieder, MD, and Lyn Gracie, MD. Interviews will last approximately one hour; couples will be interviewed separately.

Several restrooms and drinking fountains will be closed temporarily in order to do some construction which will make them accessible to the handicapped, particularly those in wheelchairs. The schedule is: through May 6 — HSW 1000A, HSW 1400 A and B, HSW 1600 A and S 239; from May 7 to 21 — S 541, S 599, S 609 and S 625. For further information contact Joe Bluford at x3801.

The Office of Extramural Support reminds individuals that contract and grant continuation proposals which include a request for travel funds are to provide a detailed justification for the amount being requested. NIH is insisting that the budget page indicate who will travel and the purpose and destination of the proposed trip. For further information call x2977.
